

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

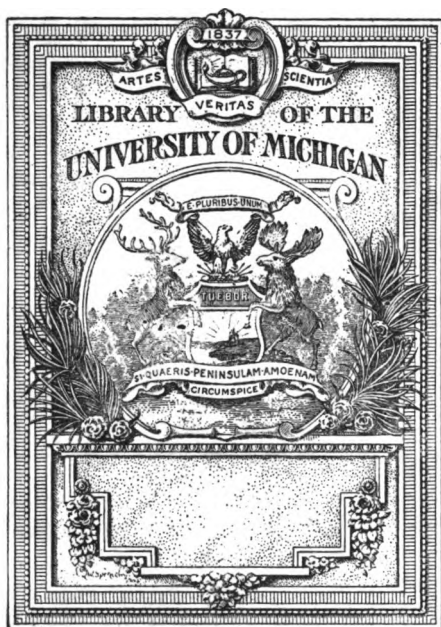

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## SECRETARY'S REPORT.

---

**As Read at the Annual Meeting Held December 5, 1906, in the  
City of Chicago.**

---

*To the Officers and Members of the Hampshire-Down  
Breeders' Association of America.*

Your secretary offers the following report:

The year 1906 has indeed been a record breaker for this Association. We have received more new members, collected more money, established more new flocks, have a larger treasury balance, are receiving more attention and invading more new territory than in any previous year in the history of the Association. This may be in part due to the generally prosperous times, but in a large measure it is surely the "coming into his own" of the mightiest, grandest, best and most useful sheep the world has ever known. His giant strides toward popularity in the last two years has been but the fitting recognition of the great worth and merit that is his inherent right. Other sheep are good; he is better. Others are popular; he is more so. And this popularity will continue until he is known and loved in every corner of this great country of ours.

We have today, December 3, the date of writing this report, nearly 300 more registrations than were contained in the last published volume, and there will likely be several hundred more before January 1, next.

I would recommend that Volume IX of the Flock Record be published January 1. The manuscript for this volume is now edited nearly up to date and can be ready for the printer January 1st. Owing to the large number of new members it will be necessary to print a larger edition of Volume IX than of any previous volume, augmenting the expense somewhat, but we have sufficient money in the treasury to meet all demands, in the opinion of your secretary, and still have a few dollars for a contingency fund. At the date of the auditors' meeting, November 30, the cash balance was over \$1,400.00. There were also some book accounts that are entirely good that will bring the resources of the Association to nearly \$1,500.00. This will be supplemented by \$100.00 or so in all probability within the next thirty (30) days. Out of this we will have to pay the secretary's salary, the special prizes at the 1906 International, judges' fees for that show, and there will be some \$70.00 due on advertising January 1st. All state fair prizes, so far as have been awarded and reported, have been paid.

Your secretary has the revised copy for some new printed matter, but inasmuch as there is a proposed change in the name of the Association, thought best to hold it until that matter was decided.

We have paid about \$160.00 in bounties this year to those registering imported sheep. Your secretary is of the opinion that this is unwise. Any movement looking toward a lowering of the price of registration will or may have a tendency toward lowering the standard, and I do not believe that one more sheep has been or will be imported under a 50c fee than under a fee of

\$1.00, and any sheep worthy of bringing across the ocean is worthy of a \$1.00 certificate of registration.

I believe the special prizes offered at the several state fairs and at the International are conducive of much good and are worthy of a continuance.

I am also in receipt of a communication from the chairman of the Alaska-Yukon-Pacific Exposition to be held in the city of Seattle in 1909, asking that we make some special provision for same. I herewith present their letter and my reply to same.

Your secretary has interviewed many of the leading breeders of Hampshires in this and the mother country soliciting suggestions relative to the adoption of a universal type. In all cases I have submitted copies of our present standard, and also of photographs, and the consensus of opinion has been that our present type standard is as near the real and ideal Hampshire as it is possible to describe, and the photograph of "Barton's Best," as appearing in our last Flock Book, the ideal sheep. In view of the so general opinion, as well as my own conviction, your secretary makes no suggestion of change in the type.

The suggestion relative to a co-operative movement in importation did not receive sufficient encouragement to warrant action being taken in the matter. Large importations, however, have been made and no doubt the breed has been as well served as could have been done in any other manner.

In compliance with the request that investigation be made regarding the advisability of adopting some of the button ear-tags, your secretary sent inquiry to every member of the Association asking their expe-

rience with such labels. About forty replies were received and in all but two instances they were unfavorable to the button tag. The price is about two and one-half to three times that of our present Dana tag, and it would also necessitate the purchase of a special implement by each member to insert them. Your secretary did not think it expedient to make the change.

Since our last meeting our esteemed vice-president, A. F. Filley, has departed this life and I would recommend that a committee be appointed by the president to draft suitable resolutions of respect that shall be spread upon the records of this Association and a copy sent to the sorrowing family.

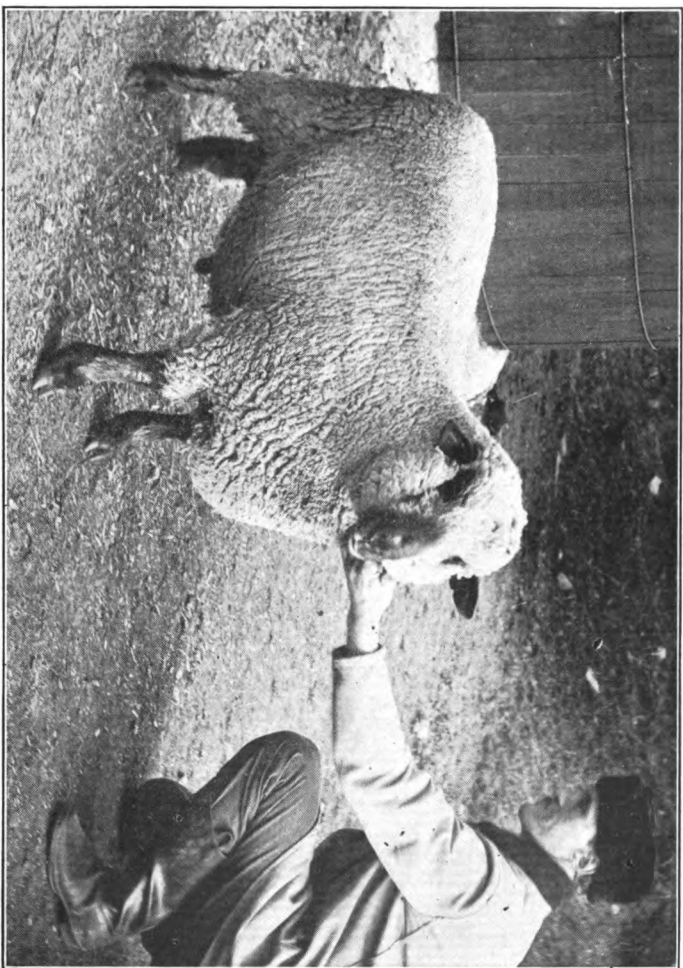

Since our last annual meeting forty-two new members have been received in the Association.

Coming as they do from all parts of the country and denoting a widespread interest in our breed—all in all it has been a red-letter year for the Hampshire interests, and I wish to thank every member of the Association for the part he or she has taken in bringing about this result, for it is only by one grand and united effort such as our constituency is capable of making could such mighty results be achieved. I wish also to thank the members and executive committee for the uniform courtesy and many personal favors extended this office which are thoroughly appreciated.

All of which is respectfully submitted.

C. A. TYLER, Secretary.

## CONSTITUTION.

---

### ARTICLE I.

The name of this Association shall be American Hampshire Sheep Association.

### ARTICLE II.

This Association is formed to guard and maintain the purity and encourage the spread of the Hampshire-Down breed of sheep.

### ARTICLE III.

Breeders of Hampshire-Down sheep who are of good moral character may become members of this Association, when approved by a majority of the Executive Committee, on the payment of a membership fee of \$5.00.

### ARTICLE IV.

The officers of this Association shall be a President, four Vice Presidents, located in the East, South, West and Canada, and a Secretary and Treasurer, who shall perform the duties of both offices.

### ARTICLE V.

The officers of this Association shall constitute the Executive Committee for the transaction of all business of the Association, any three of whom shall constitute a quorum.

### ARTICLE VI.

The duties of the officers and of the Executive Committee shall be such as usually pertain to such offices.

### ARTICLE VII.

The Secretary and Treasurer shall give bond in the sum of one thousand dollars, conditioned for the faithful performance of his duties; said bond shall be approved by the Executive

## XVIII

Committee. He shall receive such compensation for his services as the Executive Committee may consider just.

### ARTICLE VIII.

An annual meeting of the members of the Association shall be held at a date and place agreed upon at the preceding annual meeting, at which time the officers of the Association shall be elected by a majority of the members present and of those voting by proxy. Nine members present shall constitute a quorum.

### ARTICLE IX

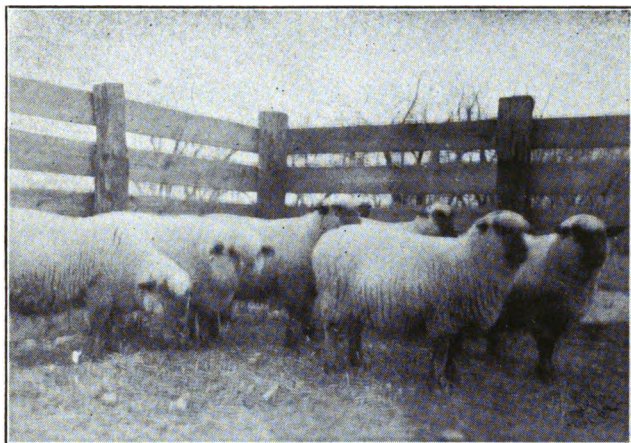

A member charged with willful misrepresentation in regard to any animal owned or bred by him, or with other dishonorable conduct, if such charge be fully sustained, the Executive Committee may suspend him until the next annual meeting, when, after a full hearing of the evidence, such offending member may be expelled by a two-thirds vote of the members present.

### ARTICLE X.

A Registry of pure-bred Hampshire-Down sheep shall be established and kept by the Secretary, subject to such rules and regulations as may from time to time be adopted by the Association.

### ARTICLE XI.

This constitution may be amended at any annual meeting when the proposed amendment has been submitted to each member of the Association by mail thirty days prior to such meeting, if approved by two-thirds of the members present.

**DR. SARGENT F. SNOW, SYRACUSE, N. Y.**

## RULES OF ENTRY.

---

1. Sheep shall be eligible to registry that have been imported from or that can be traced in all their lines of descent to the flocks of reliable breeders in England.

2. The registry fee shall be one dollar for each mature animal and fifty cents for each lamb registered prior to January first each year. Double these fees shall be charged to persons not members of the Association.

3. Applications must be on blanks furnished by the Secretary, and should be signed or accompanied by a certificate of the breeder of the animal, if such breeder is living.

4. The President has authority to appoint a committee to examine and report to the Secretary as to the purity of breeding or merits of the animal offered for registry in case of doubtful pedigree or inferior animals. Said committee shall not exceed three members and the expense of the examination shall be guaranteed by the owner of the sheep.

5. The breeder of an animal is the party owning the dam at the time of the service and dictating the mating.

6. Animals, when approved, will have "record" numbers assigned them, and ear-tags and certificate of registry will be forwarded to the owner, the tags to be inserted either in place of private tags then in use or in addition thereto.

7. The Association shall have separate series of numbers for rams and ewes. In addition thereto owners may have private names or numbers as they prefer, but in the "Record" all animals shall be known by the name of the breeder or owner at date of registry and the number assigned in the "Record."

8. An unsound or unworthy animal will not be admitted to record when facts proving inferiority are made known. If, however, by any means, an animal is admitted improperly, the facts in the case shall be stated in the next succeeding volume

of the Record, and no progeny tracing to or through such animal shall thereafter be admitted.

9. The transfer of ownership of recorded animals must be reported to the Secretary upon blanks furnished by the Association; these to be placed on file and a certified copy of each sent to the purchaser by the Secretary. A fee of twenty-five cents will be required for each animal transferred.

10. Owners of registered sheep shall report to the Secretary, within ten days after death, all sheep that die in their possession; also forward ear-tag to the Secretary, who shall put on file and make note of the same in a book provided for that purpose.

11. New members will receive the last volume of "Flock Record" published prior to the time of becoming a member, free, and will be charged one dollar each for preceding volumes.

12. No member shall receive free copy of the "Flock Record," unless he or she shall have paid something into the treasury of the Association, by fees or otherwise, during the period covered by such record.

Dec. 10, 1906.

In October, 1898, Mr. R. H. O'Donald, of Howard City, Mich., purchased of John I. Gordon registered ewes Nos. 3800, 3805, 3807, 3808, 3809, 2526, 3183, 3196, 3197, 3752. This ewe purchase has been supplemented from time to time by purchase of ram No. 1448 from James Wood, 1898 from E. F. Newcom, 1569 from E. F. Newcom, 2958 from H. W. Allison, 4490 from John Milton, 4534 from H. L. Andrews, also by the purchase of a registered ram from P. W. Artz in 1899 and one from C. A. Tyler in 1902. At this writing there are 62 breeding ewes, the offspring of these matings. This flock having been inspected by a member of the executive committee and found to be perfect and believed to be exactly as represented, at the annual meeting held Dec. 5, 1906, it was decided to accept them for registration. These sheep are now owned by the firm of O'Donald, Scott & Voss, and the following numbers have been assigned them, 13747-13823 inclusive.
